Forecast for Tuesday 07 Jun 2022

Weather: Widely dry and bright through the morning. Fair weather cloud will bubble up to give an afternoon of warm sunny intervals. Some showers developing in the afternoon but these should remain few and far between. Cloud thickening from the southwest into the evening, with outbreaks of rain towards midnight.

Chance of cloud-free hill tops above 600m: 90%, lowering to 60% during the evening.

Low cloud and visibility: Cloud bases well above summits during the day, including during showers. Cloud bases lowering to 400-600m by late-evening with bases remaining above summits across Peaks in northern and eastern parts of the park. Visibility outside of cloud very good, locally moderate in and around any showers.

Meteorologist's View

Elevated UV levels expected during sunny spells on Tuesday with sun protection. Packing of waterproof layers advised in case of any showers.

Recent rainfall: measured at Cat & Fiddle: altitude 511m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sun 05 Jun 2022	4.4mm	4.4mm	4.6mm

Forecast for Wednesday 08 Jun 2022

Weather: Outbreaks of heavy rain will clear through the morning with brighter spells following behind. Scattered showers then developing widely, turning heavy and thundery at times with a chance of hail. Showers may merge into longer spells of rain. Drier overnight with clearer skies developing in the south. Otherwise largely cloudy.

Maximum wind: Westerly or southwesterly 15-20mph, gusting 30-35mph at times.

Chance of cloud-free hill tops above 600m: 20%, increasing to 80% by mid-morning, lowering to 60% in association with rain and showers during the afternoon.

Low cloud and visibility: Extensive low cloud covering slopes down to around 300m initially. Cloud bases will lift clear of summits by mid-morning as rain clears away to the north. Some patchy cloud may cover higher peaks in any showers. Visibility beneath cloud poor in rain, becoming good as cloud lifts, with deteriorations to moderate or poor in and around any passing showers or prolonged rainfall.

Temperature: **Valleys:** Plus 11 Celsius reaching Plus 17 Celsius.

At 600m: Plus 10 Celsius rising to Plus 14 Celsius.

Freezing level: Above summits.
